

# CALFED MEMO

To: Dick Daniel

March 4, 1997.

Subject: Partial Review of Ecosystem Restoration Program Plan, Volume I and II, Inhouse Working Draft, February 24, 1997.

From: Jim Martin 

This memo will identify suggested informational and organizational items that should be included in the subject documents. These items are listed below for discussion purposes:

- Tabs for sections with table of contents for section visions;
- Glossary, including existing terms;
- Representative pictures for all ERPP Volume II visions;
- Explanation of grading and consistency for visions;
- Consistent use of targets and goals within the visions;
- Consistent reference citations for each vision;
- Matrix summary(s) of visions;
- Draft visions should be consistent with other CALFED Program proposals; and
- Combine more species visions into guilds.

I am prepared to meet with you at your convenience to discuss these and more specific comments. Please call me at 653-9715 or drop by anytime.
